Chinese	A1

Lic. Alexander Sandoval

ANALYTICS ENGINEER · BI & DATA PIPELINES · 6+ YEARS OF EXPERIENCE

PROFILE

Analytics Engineer with 6+ years of experience building automated reporting, dashboards, and analytics solutions to support business and commercial decision-making. Strong background in SQL, Python, Excel/Google Sheets, and BI tools (Power BI, Tableau), with hands-on experience designing scalable data pipelines and performance dashboards.

Worked closely with finance, operations, and commercial teams to translate business questions into actionable insights, ensuring data quality, consistency, and automation. Comfortable operating in fast-paced, remote environments and contributing to the setup and evolution of analytics foundations. Recently expanded into distributed data engineering and applied statistics — building systems that catch problems automatically instead of waiting for someone to notice them — and uses AI tools daily to move faster from idea to working pipeline.

WORK EXPERIENCE

Data & Analytics Engineer

Feb 2026 – Present · Lima, Peru

LINDCORP

- **AI for international trade:** Built a Databricks Apps application that uses AI to read import invoices, cutting processing time per document from hours to seconds.
- **Tax compliance:** Helped generate the SUNAT-required valued inventory ledger (PLE electronic books) during an ERP migration and audited it technically in Databricks and Oracle.
- **Inventory loss control:** Designed shrinkage alerts based on anomaly detection in Databricks and Oracle ORDS, delivered through an AppSheet mobile app.
- **Data quality and integrity:** Built an Oracle APEX app that reconciles inventory across systems and tracks purchase orders, shipments and receipts.
- **Accounting analytics:** Ran an exploratory analysis in Python and Power BI of the general ledger, purchase register (PLE), technical accounts and invoices traded on Cavali to identify potential anomalies and unusual patterns.

Stack: *Databricks (PySpark, Delta Lake, Unity Catalog, AI Functions, Databricks Apps) · Oracle Retail (POS, Merchandising, APEX, ORDS) · SQL · Python · Streamlit · AppSheet · Power BI · Looker Studio*

Data Integration Specialist

Jan 2025 – Nov 2025 · Lima, Peru

LAUREATE PERU

- **Cross-team alignment:** Acted as strategic bridge between data engineering, BI, and finance teams, ensuring data consistency.
- **Executive reporting:** Designed and implemented advanced Power BI dashboards for executive decision-making.
- **Data pipelines:** Built end-to-end data pipelines in Azure Synapse Analytics and Azure Data Factory.
- **Process automation:** Automated data transformation and quality checks using Python and SQL, reducing manual reporting effort.
- **Performance optimization:** Optimized SQL queries and data models in Azure Synapse for high-performance, business-critical dashboards.

Stack: *Azure Synapse · Azure Data Factory · Power BI · Python · SQL*

Reporting Analyst

Jun 2021 – Dec 2024 · Lima, Peru

ASSIST CARD PERU

- **Operational reporting:** Developed and maintained operational and management reports, extracting data from databases and flat files.
- **BI delivery:** Delivered analytics solutions in Power BI and Tableau for operational areas and management.
- **ETL automation:** Built automated workflows in Python and SQL to clean, transform, and consolidate data.
- **Process modernization:** Evolved reporting from manual processes to automated, scalable analytics solutions.

Stack: *Power BI · Tableau · Python · SQL · Power Query*

PROJECTS

AI-based Customs Classification Platform for International Trade
Nov 2025 – Present

Platform to support accurate HS code classification, tax estimation, and identification of import permits. Translates customs regulations into structured datasets and decision rules. Selected and validated within a public innovation and financing program for tech-driven foreign trade solutions.

Market Demand Analysis for E-commerce Product Selection
Jan 2026 – Present

Analysis using Google Trends and search behavior data to identify high-demand product opportunities for e-commerce and import businesses in Peru. Findings translated into actionable insights for import strategy and go-to-market planning.

Training Lab — Self-Directed Learning Platform
2026 – Present

Self-built web platform (React/Vite) to accelerate personal upskilling across data engineering, AI, business, and English proficiency (IELTS). Designed a spaced-repetition question engine and a content pipeline that extracts material from verified source texts, then applies AI to synthesize original, exam-style practice content rather than copying it verbatim. Expanded into a full IELTS exam simulator (Reading, Listening, Writing, Speaking) with timed mock tests and self-assessment against official band criteria.

VOLUNTEER LEADERSHIP

Vice President of Public Relations (Volunteer)
Structures College Peru Toastmasters Club · Toastmasters International, District 222
Jul 2026 – Present · Lima, Peru

- Direct public relations and brand strategy for the club — producing branded digital assets (social media templates, event announcements, promotional graphics) and managing its digital presence (Facebook, Instagram, website) in compliance with Toastmasters International's Brand Manual.
- Designed and shipped a self-service "Zoom Virtual Background Generator" web tool for the club's toolkit, adopted by all nine officer roles and general members to produce personalized, on-brand virtual backgrounds.
- Coordinate outreach campaigns and track their effectiveness, and led a full handover of the club's digital accounts from the outgoing officer to ensure uninterrupted continuity of operations.

EDUCATION

International Business Administration
Universidad Peruana de Ciencias Aplicadas (UPC)
2017 – 2023 · Lima, Peru

International trade, economics, finance, accounting, logistics and supply chain. Electives in data analysis and statistics.

International Diploma in Leadership & Management Skills
ESAN Graduate School of Business
Jul – Oct 2015 · Lima, Peru

Personal effectiveness, self-awareness, emotional intelligence, and leadership skills applied to team and organizational management.

Tourism and Hospitality Management
Universidad de San Martín de Porres (USMP)
2006 – 2012 · Lima, Peru

KPI monitoring, demand patterns, occupancy rates and operational performance for managerial decision-making.
